

## About the Editors.....

**Ms. Huma Parveen Mansuri** is working as Assistant Professor in the department of Physics at Government College Kalukheda District Ratlam (M.P.). She has 10 years of teaching experience. She has completed her M.Sc degree from School of Studies in Physics, Vikram University Ujjain, M.P and she is also SLET qualified organised by MPPSC. She is pursuing Ph.d from Bhagwant university Ajmer. She has contributed many research papers in various international and national reputed journals and paper presentations in international and national conferences, seminars and workshops. Her area of research is Synthesis and Characterization of natural dye sensitizers for Dye Sensitized Solar Cells.

**Dr. Santvana Bapna** is currently rendering her services as an Assistant Professor and HOD in the Department of Physics at B.N.P.G. Girls' college Rajsamand. She is an experienced educationist with 20 years of teaching experience. She is versatile and possesses a brilliant academic background. She perused her M.Sc. in Physics from Mohanlal Sukhadiya University, Udaipur. She obtained her M.Tech degree from Singhania University and her Doctorate degree in Astrophysics from Mohanlal Sukhadiya University, Udaipur Rajasthan. Her research area is the study of X-Ray Pulsars through observations of different X-ray astronomy satellites. She has contributed with many national and international research papers in reputed journals and presented papers in several national and international conferences, seminars and workshops. Also one scholar's Ph.D. has been completed under her guidance. Her two books have been published. She is dedicated towards her subject & always tries to make her students understand the significance of this subject. Her motto is to make Physics interesting so that students and common people can understand it easily.

**Dr. S.D. Khan** is working as Assistant Professor in the department of Physics at Agrawal Girls College Gangapur city. he has 11 years of teaching experience. He has got long experience of teaching Degree and Diploma Engineering and Technology students. He obtained M.Tech degree from Rajasthan Technical University Kota. He is teaching course in electronics, linear integrated circuits, microprocessors, VLSI design, nuclear physics at undergraduate and postgraduate level. He has published many research papers in various international and national reputed journals and paper presentations in international and national conferences, seminars and workshops. He works many projects and r&d labs and made various projects such that artificial intelligence, webmer protocol etc. He is a sole author of nine solved papers in delta publication. He has guided students for project works at undergraduate and postgraduate level. His fields of interest are integrated circuits, electronic devices and circuits, digital electronics and microprocessor. He has also organized various seminars workshop in Electronics and Communication field.
